TO THE

CANADAS & WESTERN STATES!

—BY—

Train & Co's Line.

THROUGH TRAIN & CO., Proprietors of the Boston and the Liverpool Line of Packets, hereby give notice that they have made extensive arrangements with the Western Rail Road Corporations, in connection with the Rail Roads in the Western States, and steamboats on the Lakes, for the forwarding of *pre-paid passengers* from Liverpool to the Canadas, Western States, and are now selling tickets at their offices in Boston, and at their authorized agencies, for passage and effects of passage as follows:

From Liverpool to		$ct.
"	Albany, N. Y.,	15 00
"	Buffalo, "	22 00
"	Kingston, C. W.	22 50
"	Columbus, O.,	24 00

"	Detroit, Mich.,	24 50
"	Cincinnati, O.,	24 50
"	Chicago, Ill.,	25 00
"	St. Louis, Mo.,	28 00
"	Milwaukee, Wis.,	25 00

Children under twelve years of age at the time of their embarkation, for dollars less than the above; and infants under twelve months thirteen dollars less than the above named prices to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; also, conveyance and wagonage from Boston where required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ships at Boston, to the destination agreed upon.

In addition to my provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

Two oz. of Tea; 8 oz. of Sugar; 5 lbs. of Oatmeal; 2½ lbs. navy bread; 1 lb. wheat flour; 2 ½ do. rice.

Children under twelve years of age (not including infants) are furnished with six pounds of bread stuffs per week; the same allowance of water, and half allowance of Tea and Sugar.

As soon as our Liverpool House informs us per steamer of the names of the passengers to whom we prepaid their passages in the *British Pilot*, and also notify each purchaser of *pre-paid certificates*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give prepaid passengers the necessary instructions regarding their route to the inward.

Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canadas, or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of immigrants, that as owners of the only LIVERPOOL and BOSTON LINE OF PACKETS, they have determined that their immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate agents.

In calling public attention to the splendid line of Ships which compose our Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The Thousands of Letters which have been sent to Europe by Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by these Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

Those magnificent Ships are ALL AMERICAN BUILT and owned, and are commanded by men of the first class, and for the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements which combine to health, safety and comfort as a superior system of lighting and ventilating, the very best Provisions, and a careful medical superintendence.

The Captains have been carefully selected as first-rate sailors and men of character, to whom the Passengers will be entrusted to each ship, and no expense is spared to render this the best and most pleasant conveyance to America.

As Train & Co. have made this arrangement with Liverpool as will PROTECT their friends from the frauds and impositions sometimes practiced there, they believe that those who prepay passages cannot but feel the advantages of being able to proceed on their voyage to Immediate Homes, on favorable terms, for a well known Line of Magnificent Packet ships, and in this way avoid the disrespect, annoyance and delay which they so often experience when they engage with Agents who are but slightly connected with trans-Atlantic Ships.

As a proof that their Immigration business is conducted on principles uniformly honorable and humane, and that they have been distinguished for the most exact fulfilment of all their engagements, we are permitted to refer to the very first THEOLOGICAL MEN in the Kingdom.

VOLUME X. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Governor's Message.

Fellow Citizens of the Senate and Assembly—

It is made the duty of the Governor, annually, upon the assembling of the Legislature, to communicate the condition of the State, and recommend such matters for their consideration as he may deem expedient.

The past year has been one of unusual health, and unparalleled prosperity in the history of our State, and justifies, on this occasion, indulgence in more than the usual congratulations. Every branch of industry has prospered. The field, the forest and the mine, have paid their tribute to the common treasury, while the increase of our commerce and manufactures, has more than realized the expectations of the most sanguine. Internal improvements, conducted by private enterprize, have steadily progressed, and are beginning to manifest their importance by substantial benefits. Confidence, both at home and abroad, in our resources and ultimate prosperity, is permanently established. Although disease has visited some parts of our common country, and manifested itself in its most appalling form, it is still a matter of congratulation that our sister States have generally been blessed with health and abundance.

The Vice President of the United States, distinguished alike for his public services and private virtues, was, shortly after his elevation to office, removed by the hand of death. We have also been called upon, since the assembling of the last Legislature, to mourn the loss of one who has heretofore acted a prominent part in the councils of our State, and shared, in an uncommon degree, the confidence of our citizens.

From the Message of the President of the U. S. to the present Congress, and the Reports of the heads of the different Departments, it is manifest that the guardianship of the Union is committed to safe and prudent hands. The circumstances connected with the arrest and release of Martin Koszta, by the Austrian authorities, at Smyrna, are familiar to all; and the policy adopted by our Government in that case, in relation to citizens clothed with nationality, must meet with your approbation, and be a source of proud gratification to every true-hearted American.

In commencing to remark upon matters immediately interesting to our State and people, I would direct your attention to the evils of excessive legislation, which have become so apparent in the mass and conflict of laws encumbering our Statute books, that even our Courts have difficulty in determining what, in many cases, is the existing law. And in this connection it may be proper to remark, that the people are anxiously and justly desirous that the present session may be a short one, and that there may be a consequent decrease of legislative expenses. At the last session of the Legislature, the constitutional step was taken, necessary to a change of the Constitution, so as to provide for the biennial sessions of the Legislature—which subject will claim your attention.

It is a question worthy of your most careful and serious consideration; and while a large portion, and perhaps a majority of our citizens, are favorably inclined to this change in our Constitution, it may be well to consider whether this opinion on their part, has not been fostered and strengthened by so much conflicting legislation, and the consequent expenses of long sessions, rather than by a due and proper reflection, as to the probable effect of biennial sessions, on the prosperity of the State, and whether, if you should adopt the plan of short sessions, and careful and economical legislation, it would not be better for the view of our constant and increasing wants, that the Legislature should continue to assemble annually.

It seems eminently proper to me, that in a State like ours, with its resources comparatively undeveloped and inhabited by people from every section of our common country, and from almost every portion of the world, that once a year their Representatives should meet to consult together for the common good. By these means each section of our State becomes better acquainted with the wants and resources of the other, and it is only by a thorough knowledge of the condition and wants of the whole State, and every section of it, that we can hope to promote its advancement and prosperity through the instrumentality of legislation.

Frequent attempts have been made, at former sessions of the Legislature, to effect a change in the present system of county government. By one of my predecessors, in his annual message, this subject was pertinently discussed, and I am satisfied the positions there assumed were correct. Entertaining these views, I commend the subject to your consideration, and submit whether an amendment of the existing law should not be made, so that the duties now required to be discharged by the County Board of Supervisors, may be performed by a much less number of officers.

The Reports of the Secretary of State and State Treasurer, to which your attention is invited, exhibit the condition of the Treasury, and the receipts and disbursements, in detail, for the year 1853. It appears that the whole sum paid into the Treasury during the year, from all sources, amounted to about $390,000, on account of the following funds, viz:

General Fund	$152,565 32
Principal of School Fund	67,701 76
" " University "	11,095 47
Income " School "	73,650 81
" " University "	6,616 25

The disbursements during the same period, were as follows:

General Fund	$160,726 64
School Fund (including loans)	33,609 84
" " Income	56,185 71
University Fund Income	3,625 69
Overpayments on account of General Fund	$281 32

The following is a statement of the balances in the Treasury on the first day of January, 1854

School Fund	$34,694 92
" " Income	17,465 10
University Fund,	228 25.
University Fund,	10,867 22
" " Income,	2,990 56
Total	$65,417 80
Deduct over-drafts on general Fund,	8,281 32
Total balance in Treasury, Jan 1, 1854	$57,136 48

The estimate of the Secretary of State, of the probable amount, to be drawn from the Treasury during the present year, for the general expenses of the State, is stated at $147,210 70. The means, applicable to meet the same, are estimated as follows:

State Tax (six mills on the dollar)	$150,000 00
Arrearages due from Counties	9,332 74
Miscellaneous	7,685 00
Total	$160,017 74

In the foregoing estimate of resources, nothing appears to be included as derivable from the tax upon Banking capital, which, judging from the amount that has been realized from that source, during the past year, may safely be estimated for the present year at $15,000 00. It is believed, also, that the estimate of the Secretary of the amount of State Tax is far short of the amount that will be actually received.

This Report will be found to contain many valuable suggestions in regard to the present inefficient and unequal system of assessments—the present mode of auditing accounts—the time and manner of distributing the income of the School Fund, and also the distribution and publication of the laws—to all of which I invite your attention, as being subjects worthy of consideration.

It will be your duty at the present session to make the necessary provision for levying a State Tax, sufficient to meet the demands that will necessarily be made upon the Treasury for the year 1855. In some instances the amount levied, has proved inadequate—the effect of which has been to impair credit, and thus operate in a manner detrimental to the interests of the State and injust to its creditors. Prudence and sound economy clearly dictate the true policy to be, to make ample provision for all exigencies which may necessarily arise.

The Report of the Commissioners of School and University Lands, herewith submitted, is worthy of your attention. The Report of the Secretary of State, shows that the School Fund on the first day of the present month, amounted to the sum of $1,141,804 28—arising almost exclusively from the sale of lands granted by Congress. The amount of income due and subject to apportionment, for the support of Common Schools the present year, including the balance now appearing is, $97,391 39. While the Fund promises to be large, from the proceeds of land only, and eventually sufficient to support our Common Schools, without the aid of taxation, yet there are sundry other resources provided by the constitution, which, if not overlooked, will do much to augment the same.

One of the provisions of the Constitution, which I feel it my duty to press upon your attention, is that relating to fines, and is as follows:—"The clear proceeds of all fines, collected in the several counties, for any breach of the penal laws, shall become a part of the School Fund." Provision has been made by law, requiring these fines to be paid into the State Treasury, thro' the County Treasurers. The amount paid into the Treasury from this source, is so trifling, that it is very apparent there has been a reckless disregard of this provision on the part of county and town officers, into whose hands these fines are paid. Many thousands of dollars, it is believed, are wrongfully and illegally withheld by those officers, which should long since have reached the Treasury.

Such enactment, as will insure the correction of the evils complained of, seems to be demanded at your hands. Regarding, as I do, the School Fund, as a great and sacred trust committed to our charge—one that should be regarded by every citizen with pride—I feel that I cannot too strenuously urge upon you the propriety of investigating closely its true condition, and the making of such further provision, for the management thereof, as may be found necessary.

The absolute necessity of the accounts and records connected with both the School and University Funds being so kept as to insure clearness and permanency, cannot fail to be appreciated by you, and from some past personal knowledge of yours thereof, I am induced, in this connection, to suggest that more ample provision be made for that purpose. The Constitution vests the management of these funds, in a Board of Commissioners, consisting of the Secretary of State, State Treasurer, and Attorney General.—The ordinary duties required of these officers are such as to preclude their bestowing the requisite time and labor upon such accounts and records.

Again, to insure correctness, and to facilitate business connected with these funds, the accounts should be kept entirely separate and distinct from any and every other branch of the public accounts. The necessity of this is so apparent, that I recommend that suitable provision be made for establishing a separate Bureau, under the direction of the Commissioners, and that the necessary provision be made for the expenses thereof.

At the June Session of the last Legislature, an act, submitting to the electors of the State, the question of a Prohibitory Liquor Law, was passed. The Secretary of State, in pursuance of a requirement of that law, reports the whole vote cast, at the late general election, upon that question, to be 51,632; and that 27,519 votes were cast for, and 24,109 against the law. The expression of public opinion contemplated by the act referred to, submitting this question to the popular vote, is now before you, and it remains for you, in your wisdom, to determine what will best satisfy the sentiment of the whole people, in relation to the subject—subserve their true interests and be best adapted to the actual condition of things in the State at large.

The annual report of the Superintendent of Public Instruction will be laid before you at an early day. I commend it to your attention, as containing much of interest connected with our common schools. It appears that there has been expended in the erection of school houses within the state, $289,346 89, of which sum $45,071 84 was expended during the past year. The total amount expended in 1853 for the support of common schools was $175,734 17. By a resolution of the Legislature, passed in April last, the Superintendent was directed to "collect, codify, arrange and simplify" the school laws. This service has been performed, and the result will be presented for your approval.

The State University has, in consequence of the rapid sale of its lands during the past year, overcome in a great measure its pecuniary embarrassments. It now has a permanent fund amounting, on the first day of the present month, to the sum of $106,112 07, the annual income from which will be $7,427 84. Add to this the sum of $2,955 10—the balance of interest accumulated in the Treasury—making the total sum applicable to the support of that Institution for the present year, $10,383 94. The demand for University lands—the increased quantity of the same—by the addition of the saline lands, now nearly all selected, together with the perseverance manifested on the part of those having the Institution in charge, render it mortally certain that the original design of its projectors will be fully realized.

The Board of Trustees of the Wisconsin Institute for the education of the Blind have transmitted their annual Report, which will be laid before you. Every reason exists for believing that this Institution has been properly and ably conducted, and that the beneficial results, thus far, to that unfortunate class of our citizens, have been all that could be anticipated, and such as clearly demonstrate the propriety of continuing to extend that aid by the Legislature which may be found just and necessary for its future prosperity.

I call your attention to the necessity of taking the preliminary steps for the erection of an Asylum for the insane. The number in our State suffering from the effects of the terrible malady of insanity is, in my judgment, sufficient to demand that something should be done for their relief. This disease requires a treatment peculiar to itself; a treatment the afflicted can receive only in institutions established expressly for that purpose.

The Legislature, in 1851, commenced the very praiseworthy work of providing for the education of the Deaf and Dumb, by incorporating an Institute for that purpose, to be located at Delavan, in the county of Walworth, and appropriating the sum of one thousand dollars per year for three years, towards the construction of buildings, and the sum of five hundred dollars for the support of the deaf and dumb in said Institute, for the year 1852. At the following session, the further sum of $1,500 was appropriated, in aid of the same objects. The Report of the Board of Trustees, which will be laid before you, sets forth the condition of the Institution and its prospective wants. Their petition for further aid to aids the erection of necessary buildings, and support of pupils, appears to me to be deserving of favor.

In many, if not most of the States, grants of land for this purpose have been made by Congress, and, in some instances, similar grants have been made to aid in establishing Asylums for the insane. Seeing no good reason why Wisconsin is not, as justly as other States, entitled to grants for such purposes, I am induced to recommend that you memorialize Congress on the subject.

The benefits which have resulted from the establishment of an Emigrant Agency in the city of New York, have fully demonstrated its utility. The emigration to Wisconsin has been largely increased, since the commissioners entered upon the active discharge of the duties of their office. In view of these facts, if the Legislature should deem the further continuance of the office of interest to the state, it would seem proper from the nature of these duties, and the length of time necessary to acquire the knowledge requisite to discharge them properly, that the term of this office should be extended to two years. The Report of the Commissioner is herewith transmitted. It will be found to be very explicit, and to contain much interesting information, and many valuable suggestions.

The practical working of the Banking system of our State, though failing to supply the increasing demand for currency, has demonstrated beyond a reasonable doubt, that the law on that subject was well devised. Information derived from the Comptroller, whose Report will be duly laid before you, enables me to exhibit the following facts connected with that department. On the first day of January, the whole number of Banks, established under the law, was 10
Amount of circulating notes issued by the Comptroller, $519,000
Amount of securities deposited with State Treasurer, 520,000

All of the above securities are State Stocks, upon which the interest has been promptly paid.

The report of the Commissioner not having reached this department, I am unable at this time to lay before you any definite information in relation to our State Prisons. At the earliest practicable moment, I shall take occasion to place you in possession of such facts in regard to its condition and wants, as I may be able to collect.

At the June session of the Legislature, provision was made for the transfer of the State in the Fox and Wisconsin Rivers Improvement to a private company. Bonds in pursuance of the act incorporating such company—conditioned for the completion of the work, and the payment of the liabilities—have been executed and filed with the Secretary of State. The work has since then, been progressing, and it is to be hoped that the company will carry out, in good faith, all the provisions of the act referred to.

The subject of the Swamp and Overflowed Lands, to which the State is entitled, has, on several occasions, been brought to the notice of the Legislature. My immediate predecessor has called the attention of the proper Department of the General Government to the subject, and has received assurances that the selections and necessary steps to vest the title in the State, would be taken. It is confidently believed that this will soon be accomplished, and the propriety of making provision for the sale thereof at an early day, is urged upon your attention.

I deem it important that additions to the State Library should be made, as it is at present far from being supplied with the works which it should properly contain. It is almost indispensable that many of the Reports of other States, and valuable standard law books, which are annually published, and also some miscellaneous literary works should find a place in the Public Library. I would, therefore, recommend a standing appropriation of a reasonable sum for that purpose.

I have been informed that several of the Circuit Judges have held that persons indicted for the crime of murder, under the existing law, are entitled to bail. Section 8 of Article 1, of the Constitution, provides that "all persons shall, before conviction, be bailable by sufficient sureties, except for capital offences, where the proof is evident, or the presumption great." The Courts having placed such a construction upon the law, in connection with this provision, it is evident that some change should be effected, tending to greater security of life than at present exists.—Such action, therefore, as will constitutionally accomplish this object is suggested as not only proper, but absolutely necessary.

The fact that there is no difference now established by law, in the punishment of the first and second degrees of homicide, is an evident defect, which should be provided for. Provision should be made for the further punishment of prisoners, confined for offences, who commit outrages after their sentence. As the law is now, a desperate convict may be guilty of the highest crime known to it, and yet be is not amenable to further punishment therefor, than may have been already adjudged against him.

The rapid increase of emigration to the northern and north-western parts of the State, has made an increase of mail service in those portions indispensable. I therefore recommend the Legislature to memorialize Congress upon the subject—urging upon it the necessity of establishing, as early as practicable, the various routes now demanded by the wants of those growing portions of the State.

It is a gratifying fact that our agricultural wealth is rapidly increasing. For several successive years, the partial failure of the wheat crop, which had come to be regarded as the great staple of the State, raised doubts as to the peculiar adaptation of our soil to the growing of that grain. This naturally directed attention to the various other departments of agriculture—the farmer deeming it no longer prudent to risk all upon the success of any one product. The result of this change has been fortunate—as is evidenced in the improvement of stock—the growing of wool, and an increased production of the various kinds of coarse grains. For the past two years, although less ground has been seeded with wheat, yet the crop has been superior to those of previous years, both in quality and quantity—owing both to more propitious seasons, and judicious treatment of the soil. This success has not only relieved, to a great extent, the embarrassments, but has restored and established confidence in our agricultural resources.

Our mineral resources, although, as yet, but partially developed, already constitute one of the most important elements of our prosperity. The difficulties heretofore encountered, in consequence of the want of Capital, have, to a great extent, been obviated by the energy and perseverance of the miner. For several years past, the products of the lead mines have constituted a very considerable part of our exports. I would recommend to your careful attention the report of the State Geologist, whose labors thus far—in conformity with the act under which he was appointed—have been confined exclusively to the lead districts, and the information contained in his report on this subject, will be found of interest.

Beds of iron have been discovered in various sections of the state, and in the county of Dodge one of vast extent and richness. I am informed that arrangements are being made to work them on a scale commensurate with its importance, and particularly for the manufacture of railroad iron. If this is done, we may confidently anticipate that the time is not far distant when we can do much towards supplying the various railroads projected in this and adjoining states, with the iron required for their construction, at reduced prices, and of a superior quality. In view of the benefits which must result to the great mass of our citizens, from a more rapid developement of our mineral wealth, I would recommend that every constitutional and reasonable encouragement be extended to this branch of industry.

The Railroad enterprises which are contemplated, and commenced in our State, are deserving of more than a passing notice. While the Legislature has been liberal in granting charters, they have, at the same time, been careful not to authorize any which would seriously interfere with other lines of communication, already in progress, or chartered and likely to be constructed. In our youthful State, it becomes the duty of those having committed to their charge its interests, to foster, by all reasonable and proper means, those undertakings which will best tend to bring into use, our varied resources, and to be wary of throwing impediments in the way, which might deter capitalists from investing their means in such improvements, as are best calculated to effect that result.

Wisconsin only needs the opening of avenues of communication, to increase in population and substantial wealth, in a manner unexampled in the history of Western States. Rapid as has been our growth, thus far, it is in our power to outstrip previous progress, and soon rival other States, which had long been established, wealthy and powerful, while Wisconsin was yet a wilderness.

Aside from the stimulus given to the agricultural interests, by increased facilities for conveying produce to the Lake ports, consequent upon the construction of Railroads, the vast mineral wealth, and the valuable pine lands within our borders, will, by their proximity to market, offer great additional inducements for the employment of capital and labor. I trust that a due sense of the responsibility resting upon the Legislature, will lead them to assist, so far as is proper, each and every enterprise, which is likely to result in the permanent advancement of these important interests. So far as the enactment of constitutional laws can relieve the different Railroads from taxation during their construction, I recommend their passage, as one of the means of encouragement, within your power to render.

The subject of the Pacific Railway is justly exciting public attention throughout the entire Union. The President, in his Message, recommends it to the consideration of Congress, as one of more than ordinary interest—and, certainly, it is a work of unparalleled magnitude, and worthy of the best energies of a great and growing nation. And while it is a work of great national interest, in which every section of our country is deeply interested, I cannot but regard it as one of peculiar importance to the people of the North West, and especially of our own State—in view of its probable location on the Northern route—in which case no time should be lost more immediately than other localities, the benefits arising from this great thoroughfare.

The power and policy of the General Government, to make liberal land grants in aid of this road, will doubtless be much discussed at the present session of Congress. Already their attention has been particularly called to it by the Secretary of the Interior, in his annual report, wherein he discusses, with much ability, both the right and the policy of liberal land grants in aid of public improvements of this description. Of his views in this respect, I most fully approve, and therefore I suggest the propriety of memorializing Congress upon the subject, in accordance with the same.

Having said thus much on the great question of the Pacific Railway, and the propriety of land grants in aid of its construction, I will call your attention to the subject of land grants, of a similar character, to our own State. And whether it is the true policy of the United States to make such grants in aid of Internal Improvements, to the several States or not, it seems to me that there can be no reasonable doubt as to the policy of the States in receiving them. The United States have not yet adopted the laudable policy of giving the lands, in small quantities, to actual settlers—a measure which has been repeatedly and earnestly pressed upon their attention—but still continue to sell the same, and in quantities to suit the purchaser.

While this is their policy, I confess I can see no good reason why the State may not accept and prudently expend, the avails of such grants in aid of Internal Improvements, necessary to their growth and prosperity. The fact that such donations have sometimes been mismanaged, furnishes no argument whatever, in my opinion, against receiving and applying them in aid of important public works. Such a course would surely be prudent for us in our individual capacity, then why not for us collectively?

Our School Fund, of which we are so justly proud, arises almost exclusively from this source; and this year the State will realize, for the benefit of education, nearly one hundred thousand dollars, as interest on the small portion of lands granted to this State for that purpose; and for all time to come, we are to be thus benefitted. It is believed that a corresponding benefit may be realized to other interests of the State, by a like judicious management of land grants.

There is one subject, so important to our commercial interests—so intimately connected with the prosperity of all classes of our citizens—and yet so strangely neglected, that I cannot omit this opportunity to commend it to your special consideration. Heretofore, the Federal Government, under grants contained in the Constitution, has, with some few exceptions, exercised the power of making improvements on rivers and harbors, by means of appropriations drawn from the Federal Treasury.

It would be reasonable to suppose, that interests so important, would have received, at the hands of such a guardian, attention in some degree commensurate with their importance.—Such, however, is not the case. The rapid growth of our commerce—internal and foreign—and which is really one of the greatest sources of our prosperity, does not seem to have aroused the attention of Statesmen sufficiently to the subject, to determine any settled policy on the part of the federal government. The last Congress, made appropriations, which, so far as the North-west is concerned, were entirely inadequate, and have been expended under a system so inefficient, as to accomplish very little towards the object intended—a system condemned by the experience of nearly half a century.

The policy on this subject, is as uncertain today, as at any time since the organization of the government; and for aught that is apparent, is likely to remain so until the people of the States, in this section of the Union, force it upon the attention of Congress in a manner neither to be misunderstood nor disregarded. Still the Federal Government pretends to exercise this power; and yet it neglects, or at least trifles, with the object for which it was granted. The lives of our sailors and citizens, are exposed to constant peril, from the want of that protection which these improvements would afford, and which we must have.

I would recommend, therefore, that by Memorial, you demand that adequate appropriations be made for these purposes, by the General Government; or if the several States are forced to construct them from their own resources, that additional facilities shall be afforded them by Congress. The statesman who would relieve us from this dilemma, is entitled to our lasting gratitude, and those in place, who neglect, at least, to make the effort, should be taught, in a legitimate and constitutional way, the power of self-protection inherent in every community and State.

In your efforts to promote the interests and welfare of the people and the State, you shall receive my hearty co-operation.

Finally, when we survey our State, and see around us every evidence of increasing prosperity and greatness, we have just reason for pride and congratulation. We may felicitate ourselves upon possessing all the advantages necessary to enable us to rank, in a very few years, with the richest and most powerful of the confederated States. Our climate is universally conceded to be salubrious to a remarkable degree. Our commerce, keeping pace with the demands of agriculture and the varied wants of a rapidly increasing population, has grown into importance. A teeming soil richly repays the labor expended upon it.

The facilities afforded by our inexhaustible water power to those choosing to engage in manufacturing pursuits, must, at no distant day, render this interest one of the most important that we possess. Our mineral and timbered lands are a means of wealth which cannot well be over estimated. Here, under a free constitution, guarding all his rights, the landless may secure himself a home, and by unmolested industry speedily acquire a competence. To crown all, our common school fund is so extensive and permanent, that the means of educating all, to all time, is secured.

Our country is at peace, and our prosperity as a State is emblematical of her condition. Rapidly increasing in all of her resources at home, she has made herself respected abroad, and ranks with the first among the nations of the earth. The efforts of factionists and disunionists have resulted in more firmly cementing the bonds of union between the States, and have only served to demonstrate how deeply seated is love of the Union in every American heart. We can now anticipate, with confidence, that no organized effort will ever again be made which may result in discord or dissension.

For all these blessings, we, as individuals and as a people, should feel grateful to the great Creator of the Universe.

NOTICE TO BUSINESS MEN.

The circulation of the DAILY SENTINEL is by far the LARGEST of any daily paper published in the State; and presents greater advantages to Merchants, Mechanics and Artisans, as a *medium of Advertising.*

All Advertisements appear in the Tri-Weekly *Sentinel, without additional charge.*

The *Weekly Sentinel* has now a circulation of over two THOUSAND copies, which is constantly and rapidly increasing. Advertisements put in the Weekly at the same rates as in the Daily.

Price of the Daily $5.00, of the Tri-Weekly $3.00 and of the Weekly $1.00 per year, *payable in advance.*

The Sentinel for the Session.

OUR STATE LEGISLAURE convenes at Madison on Wednesday, January 11th. The Session will be one of much interest and business. How much it will be prolonged beyond six, or eight weeks. As usual, the readers of the SENTINEL will be kept fully posted as to all that transpires there. Mr. WATSON, one of the Editors of this paper, will be in attendance at Madison, throughout the Session, and in addition to his DAILY CORRESPONDENCE, we shall publish

Daily Telegraphic Reports of Proceedings.

We will furnish the SENTINEL to Subscribers, in and out of the Legislature, during the SESSION, on the following TERMS:

DAILY, (for eight weeks,) - -	$1.00
TRI-WEEKLY, " " - -	50
WEEKLY, " " - -	25

The readers of the SENTINEL, besides getting the FULLEST AND FAIREST INTELLIGENCE FROM MADISON, will also receive the LATEST NEWS from other quarters.

☞ *Orders for the Daily, Tri-Weekly, or Weekly, for the Session, or for a longer period, must be accompanied by the Cash.*

Will our friends of the Press and others aid us in circulating this notice.

THE LEGISLATURE—THE MESSAGE.

The Legislature organized formally yesterday, In the Assembly, FRED. HORN, of Ozaukee County, was elected Speaker, and McHUGH, Clerk—In the Senate, Dr. BUSH, of the Potosi *Republican*, was elected Clerk.

The Governor's Message was sent in yesterday and will be found in our columns this morning. The lateness of the hour at which we received it precludes all comment to-day.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Jan. 10th.

The number of persons in attendence here, in quest of the subordinate offices, is enormous.—They come from every direction, and are unremitting in their attentions to members. Some of them will succeed—it takes no great gift of prophecy to foretell *that*—but it is melancholy to see such a hungry set of cormorants hanging about. Doubtless many of them spends in these office-hunting expeditions, time and money which is earned with difficulty in more creditable business; but there are many others who may as well spend both in this way as another. They are not likely to set the world ablaze with their brilliancy anyhow.

I am told that A. F. Pratt, of broad-guage fame was the "administration" candidate for Sergeant-at-Arms in the Senate. If so, the administration must be weak there, for Mr. Pratt had but 2 *votes!*

There is lots of money in the Treasury, and the Session looks long before me. The taxes have come in well, and the members must manage somhow to distribute them.

P. S.—9 P. M.—The Democrats met in caucus at 7 P. M., and nominated Fred. W. Horn for Speaker by the following vote: Horn 32, Noggle 11, John Crawford 3, J. H. Knowlton 2, I. S. Talmadge 1. Total 49.

Thos. McHugh was nominated for Clerk by the following vote: McHugh 31, H. W. Gunnison 17, Blank 1.

Nominations were made for Sergeant-at-Arms, Mr. Beecroft making an earnest appeal to the democracy for the 4th Ward, (which was in a distressed condition for want of some office,) and nominating a Mr. Portner for the post. W. H. Gleason was nominated by the following vote, on the first formal ballot, there being no choice on the informal ballot. Mr. Portner receiving 13 votes; Gleason 31, Belden 4, Portner 13.

The Whigs met in the Senate Chamber, but adjourned to 8 o'clock to-morrow, and mean to invite all the opposition to meet with them.

Legislative Proceedings.

ASSEMBLY, 10 A. M., 12th,—called to order by Mr. Hull, Speaker *pro tem.*

Journal read by T. McHugh, Chief Clerk *pro tem*—Assembly proceeded to ballot for Speaker.

Messrs. Head and Whiting, absent yesterday, were first sworn in.

On the first ballot, F. W. Horn had 47 votes, H. S. Orton 23, Wm. Hull 2, O. F. Bartlett 3, Colley 1, D. Noggle 1.

So Mr. Horn was elected, and took the chair returning his thanks briefly.

Assembly balloted for Chief Clerk, T. McHugh receiving 70 votes.

W. H. Gleason was elected Sergeant-at-Arms unanimously, 72 votes cast.

The Clerk was directed to inform the Senate of the organization of the House. The rules of the last Assembly were adopted.

Mr. Lees moved to authorize an Assistant Sergeant-at-Arms, Doorkeeper, Postmaster and Fireman.

Resolution authorizing payment of postage was passed.

Books from the Library, Statutes, Laws &c. were ordered.

A Committee was appointed to inform the Governor that the Assembly is ready to proceed to business.

MILWAUKEE AND WATERTOWN RAILROAD.—At the annual meeting of the Stockholders of the M. & W. Rail-Road, held in this city yesterday, the following Directors were elected for the ensuing year: E. CRAMER, E. ELDRED, J. HATHAWAY, A. MITCHELL, J. H. TWEEDY, H. WILLIAMS, A. B. BRITTAIN, J. S. ROCKWELL, L. A. COLE, S. FORD, MAJ. M. DENNIS, A. L. PRITCHARD, P. ROGAN.

The new Board meet this morning at 9 o'clock A. M. for the election of officers.

NO TREATY WITH MEXICO.—The Washington *Union* explicitly and officially contradicts the story of the New York *Herald*, about a treaty having been concluded with Mexico. Not content with this and altogether oblivious of the services rendered by the same *Herald* in the election of PIERCE, the *Union* adds:

"We deem it proper to state that there is not a word of truth in the statement—that it is a fabrication out and out, and may be regarded as a fair specimen of most of the news which appears from the same source in the same quarter."

MAIL DETENTION.—We were misinformed as to the cause of the mail being left on Wednesday morning. It was not a "balky horse," but varying time-pieces, that caused the difficulty. The mail waggon had almost reached the depot when the cars started.

Egregious Blunder, or Worse.

The American Railway *Times*, published at Boston, in its issue of January 5th, contains what purports to be a full and complete statement of the number of miles of Railway, in operation or construction, with their cost, throughout the United States. In that table, we find the following set down to the credit of Wisconsin;

Name of Railway.	When op'd thro'out	Miles in operation.	do. in construction.	Cost.
Kenosha and Beloit,			50	1,000,000
Milwaukee & Mississippi,		42	100	
Milwaukee & Watertown,			50	
R. R. Valley Union,	Dec. 31, '53	86		1,800,000

We think it will astonish even the "Monk's Hall" gentlemen to learn that the Rock River Valley Union Railroad was "opened throughout" (86 miles!) in this State, on the 31st day of December last! Where the Railway *Times* got its information, as to the railroads in this State, we do not know, but if the rest of its statistics are as utterly and absurdly false as those which relate to Wisconsin, it had better wipe out its figures and begin anew. The simple truth is, *that there is not a single mile of the Rock River Valley Union R. R. yet in operation!* And yet, to read the statement of the Railway *Times*, one would infer that it was completed and open for business.

The table we have quoted, as our readers will discover, while it romances in such extravagant fashion about the Valley road, does not so much as allude to the Lake Shore, Milwaukee and Fond du Lac, La Crosse and Milwaukee, Beloit and Madison, and Racine and Mississippi, three of which are under contract and in course of construction, throughout their entire length, and the other two for a good portion of the route. We submit that the *Railway Times*, is decidedly "behind the times" as to the state of most of our railroad enterprizes in Wisconsin, tho' very far ahead of them in regard to the Rock River Valley road.

RETALIATION.—The St. Louis *Republican* proposes to retaliate upon Pennsylvania & Philadelphia for giving "aid and comfort" to the Erie rioters. He says:—Let all western members of Congress feel instructed by the united, the unanimous, the imperative voice of all their constituents, without regard to sect or party, to *act, vote and speak in a body, now and for all time to come, for the creation of a U. S. Mint at New York City —or for the removal of the U. S. Mint from Philadelphia to New York.* Give those Pennsylvania "sympathisers" no quarter. If they will rob the west at Erie, let them not fatten on our common property anywhere else in their domain.

MOUNT VERNON.—It appears by the proceedings of the Virginia Legislature, that the price demanded for the Mount Vernon estate, including the house, grounds, garden, tomb, and two hundred acres of land, is $200,000.

Virginia seems disposed to play "dog-in-the manger" in this business. She will neither buy the Mount Vernon estate herself, nor suffer the U. S. Government to do so. The sum named is nothing compared with the obligation resting upon the country to possess, preserve and adorn the Home and Burial place of WASHINGTON.

☞ We are under obligations to B. K. Miller, Esq. the accommodating and attentive clerk of the U. S. District Court, for facilities furnished us in obtaining reports of the proceedings of the court just adjourned.—*Morning News.*

The same here. Mr. MILLER is a model clerk. His records are admirably kept and any information asked for is given with readiness and civility.

SILVER CHANGE.—The Philadelphia *Ledger* says that the Mint in that city has fully overcome the complaint among small dealers of a want of *Silver Change*, and that there is now in the Mint subject to the call of any persons wanting it, in exchange for gold, or silver bullion, *one million* of dollars in silver coin.

DECISION IN THE ANTI-RENT CASES.—The New York Court of Appeals has decided the suit brought by the Attorney General, to test the title to the Manor of Rensselaerwyck, in favor of the Van Rensselaer landlords and against the anti-rent paying tenants.

MAINE LEGISLATURE.—The Legislature of Maine convened at Augusta on Wednesday, Jan. 4th. The House was organized by the choice of Noah Smith, Jr., Esq., of Calais (Whig) for Speaker, and Mr. PERRY, of Oxford (Free Soiler) for Clerk

SPECIAL CHANCERY TERM.—A special Chancery Term of the Circuit Court, in and for Milwaukee County, will be held at the Court House in this city, commencing on Thursday next, the 19th instant, at 10 o'clock, A. M.

PROFITABLE STEAMBOATING.—The steamer *America*, in her trip from Cleveland to Buffalo and back, last week, cleared $10,000. Passengers and freight alike avoid the Isthmus at Erie, if any other route offers.

Interesting Letter of the Earl of Ellesmere.

The New York *Courier and Enquirer* publishes a letter from this gentleman, addressed to Gen. Webb in reference to the articles against the United States in the London Times. The writer says:

In my opinion what Americans have really reason to resent, is a vast deal of comparative ignorance respecting them. By comparative, I mean that educated people in England, who know everything worth knowing of France, or Italy or Transylvania, often know little or nothing of the United States, and certainly far less than Americans of their own class know of England. It is hostility, however, or contempt, let any man try the experiment of lecturing to an average English audience in deprecation or contempt of the stars and stripes, and he would assuredly be hooted down. It is no satisfaction to me, but it may be such to you, that the ignorance of which I speak, is quite as general with regard to our North American colonies as to the States, of the Union. It has a tendency, in my opinion, to hasten the disruption of the former.

In reference to the misunderstandings which exist between the people of England and the United States, the Earl remarks.

"The best corrective of all this is intercourse; and the best correctors Collins and Cunard."

The letter concludes in the following language:

"I say this on my own experience, as far as it goes; which, I am perfectly sensible, with reference to the extent of the Union, is a very little way. It is enough however, to satisfy me, that if Milton were alive now, he would insert into his treatise on education an eloquent paragraph recommending travel in America. I can conceive no better corrective for extreme opinions in the matter of politics. Those who shiver at the notion of republican institutions as at something incompatible with order, security and refinement; and those who favor their unlimited application without reference to the destiny of population, the diffusion of education, and other specialities, are, in my opinion equally likely to learn lessons in America.

Very truly yours,
EGERTON ELLESMERE.

To GEN. J. WATSON WEBB.

LA CROSSE AND MILWAUKEE RAILROAD.—On Tuesday evening a railroad meeting came off at the Court House. An informal ballot was taken for a candidate for a director at this place, which resulted in giving S. T. Smith the vote of $45,400, which was a large plurality over any other candidate; the whole number of votes cast however, being for $82,300. The whole amount of stock taken on this side of the dividing ridge, is about $147,000. What the result may be we are not able to say. Mr. Andrews from Sparta, had of the scattering votes, $21,000.—*La Crosse Democrat, 27th ult.*

☞ The following recipe is rather highly seasoned, but taken in small doses will be of immense service to the afflicted:

HOW TO PROLONG THE LIFE OF A SECRET.—If a secret is a little weak, and looks as if it was likely to die, there is nothing for recovering it equal to a cup of tea—but then the tea must be administered by the hand of a lady, rather advanced in years. After a cup or so, the secret will imbibe fresh strength, and will be good for, at least, ten years. N. B.—This remedy has never been known to fail, more especially if there happen to be two or three elderly ladies present, and they take good care, at the time the secret is recovering, to give the poor thing plenty of circulation.—*Punch.*

POLICE COURT—Jan. 12.

Daniel M. Ward, was examined upon the complaint of Jacob Eigman, charging him with having made threats of violence to the person of said complainant on the 11th inst. The Court required the defendant to recognize in the sum of $250, with sufficient sureties, conditioned that he keep the peace for 6 months, and pay the costs of prosecution, taxed at $4,51. Deft gave the bail, paid the costs, and was discharged.

Matthew Deuscher and John Hauser were brought up by officer Neumann, on the charge of assault and battery, upon William Kastrer. The parties settled their differences and paid the costs, and the case was dismissed.

MUSICAL SOCIETY PARTIES.—It will be seen by our advertising columns that a series of parties will be given at the Musical Society Hall during the current winter. As some objection has been made to the smoking room being so near the dancing hall, we understand that the Managers have obtained a room, for the accommodation of smokers and others, on the floor below the Hall.

AMATEUR DRAMATIC ASSOCIATION.—We understand that this Association, which has been rather sharply criticized by the press in advance of their appearance in public, will give a Dramatic entertainment at Young's Hall to-morrow evening. They invite the attendance and bespeak the impartial judgment of the public.

MORE SNOW.—From two to three inches of snow fell during Wednesday night and the foundation being good, the sleighing about the city and vicinity is excellent.

Letter from Manuel Gallegos.

We are enabled to lay before our readers a letter from the Spanish delegate to the House of Representatives, from New Mexico Territory. It needs no comment at our hands. The translation is said to be unique:

To the Editors of the Sunday Times:

DEAR SIRS: As your excellencies have previously done me the great honor of mentioning my humble name in your large paper, with much approbation, I feel slight delicacy—though a stranger—in sending you my epistle. I cannot read or write English—and, indeed, I am told that Washington is the worst city to acquire either in purity. But have a preceptor who teaches me very quick and very cheap. I was much astonished in the city of large distance, which they call Washington; and I would rather issue a buffalo than walk on a dusty day from the treasury buildings to the capital." I only arrived in town two days before the session opened; and had little time to perceive things before I took my seat. I was much bored by people whom they call the lobby gentlemen, until they found out two things: one, that I could not speak English, and another, that I was only a delegate without a vote. After this discovery was made—I had no bad treaty or cigars proffered on me. Indeed, many who, at first, were polite, did not seem to know me. I find my seat very pleasant. If I am tired, the buzz about me makes slumber very inviting; and when the talk is loud, I expect every minute that there will be some interesting fight. As yet, I have seen none, although many members use their arms as if about to use their fist.

The pay is not very bad, and is more than I could make at home trading in hides and ore. My mileage money was very good, and is now in bank. One gentleman, who talked Spanish, offered me a much larger sum if I would promote a Pacific railroad by my influence. When I told him that this just suited me and my constituents, and that I would push it without money, he shook my hand and said I was the only pure patriot in Washington. I felt honored without knowing why he said so.

President Pierce is very kind to me, but I like Senator Soulé, because he can talk Spanish equal to my poor self of Madrid. He and I have had many jokes together, and he says that I am the only member to be envied, because I have all the honor and the pay without being annoyed with speeches and votes. Perhaps he is right.

I have been to one evening party, but I saw so many black coats that I thought it might be a funeral, particularly as the ladies looked as gay and smiling as if they had just lost their husbands. I caught a bad cold, however, which Gen. Cushing says is not to be sneezed at.

I shall soon write again.

Yours with great respect,

MANUEL GALLEGOS.

P. S.—What shall I do with the large pile of unbound books with "Pub. Doc." on them?

Our Donish friend is more naive than he will be when the knaves about him imitate him.—We have answered his epistle, and recommended his selling his Pub. Docs. to the nearest paper-mill.—*N. Y. Sunday Times.*

SERIOUS ILLNESS OF EDWIN CROSWELL.—D. Wheeler, *Albany Daily Union*, of Friday, had a despatch from New York, stating that Edwin Croswell was paralyzed on Wednesday night.

The left side was paralyzed.

The Albany *Atlas*, of Saturday afternoon, states that "the above intelligence is repeated by many alarming aspect, in despatches received Mr. Croswell's friends to-day. Their apprehensions of the fatal character of the blow are painfully confirmed, and such as to leave no hope."

We sincerely trust that the result which these despatches indicate may not be realized, though we fear there is little ground for hope.—*Buffalo Courier, Jany. 9th.*

FATAL RAIL ROAD ACCIDENT.—The Batavia *Democrat* conveys the distressing intelligence of the death of Mrs. Payne, the lady who was injured in the late railroad accident at Bergen.—Mrs. Payne was married in this city on the day of the fatal occurrence. Several of the injured parties are in a precarious condition, their hurts being of a more serious nature than was at first supposed.—*Buff. Com. Advertiser*, Jan. 7.

THAT LOST MAIL.—We published a note on the 4th inst., saying "that a mail, containing money, &c., sent to New-York on the 23d of last November, has not yet been received at that office." We are informed by another Banker that a package containing $2,500 was mailed in this city on that same 23d day of November for Circleville O., which has never reached its destination. The letters for Circleville of that date are all missing.—*Cleveland Herald.*

☞ Hear Greeley on a Cleveland item:

I will not now speak of Cleveland, save of one excellent fashion, which I feel bound to commend. At the Weddell House, the guests at Breakfast are served (gratis) with fresh and clean New-York dailies, only two days old, with their coffee—and I need not say that the intellectual feast is quite as much relished as the material. Why should not the fashion become general?

Thos. H. Benton's Great Work.

THIRTY YEARS VIEW, of the workings of the American Government. Published by D. APPLETON & Co., new York, and sold exclusively by subscription.

During the last thirty years there has been no important public measure, in which this eminent and distinguished statesman has not taken an able and decisive part, and been familiar with the influences, whether secret or public, which have urged forward or opposed each. He therefore well qualified to write a history of this period.

This work will be completed in two volumes, the first of which will be published early in the year 1854, and will be brought down to the close of the administration of Gen. JACKSON. It will thus form a complete work by itself, containing about 700 double column, royal 8 vo pages, and a superbly engraved portrait of the author.

Price $5,00, payable on delivery of the book.

The book or subscription, together with specimen sheets, can be found at the law office of Messrs. TUCKER & CARVER, and we are sure will soon have an opportunity of persons desirous of subscribing to do so at their residences and places of business throughout the city and county. jan12

To Capitalists!

THE SUBSCRIBER is prepared to negotiate the sale of the Bonds and Mortgages received in full payment of Stock in the Milwaukee and Watertown Rail Road company, payable in 5 years from the 1st July last, bearing interest at 8 per cent per annum; payable semi-annually in Milwaukee or New York, at the option of the purchaser, fully guaranteed by said Rail Road Company. The mortgages are in various sums from $500 to $3,000, but mostly of $1,000 each, the makers being amply good, and the property valued at about double the amount secured and titles certified by commissioners appointed to examine same.

This opportunity of investing capital permanently, yielding a good interest, at short intervals on coupons, is deserving the attention of Capitalists.

NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont by me) printed and bound, ready for those wishing the use or him the first season, to enter their names. Season to commence the second day of April, and end the 31st day of July. He is limited for the season to fifty two mares, two of them my own. It is claimed by those owning the Black Hawk Stock that stands so high in Vermont, that the *original* Black Hawk was sired by the Old Sherman Morgan, the grand sire of my horse. If so, the same cross blood can be raised in this State, and at a far less expense than to import them from Vermont; that was one object in purchasing Comet Morgan. Wherever his pedigree is fully authenticated.

HUNTER'S CELEBRATED

Pulmonary Balsam or Cough Syrup,

PREPARED BY

CURTIS & PERKINS, DRUGGISTS,

BANGOR, MAINE.

Proof Positive—Skeptics Read—Testimony! Testimony!!

HAMDEN, Feb. 24, 1849.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing, so well calculated to operate so favorably in all cases of the lungs as that is. I have known a hard distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have a seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he sent two more of your Agents, Mr. Whitmore. After using the 3 bottles, he has become well and now labors every day. He told me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

BENJAMIN D. POMEROY.

INDIAN DYSPEPSIA PILLS.

Dyspepsia and Indigestion, with Costiveness, Acidity of the Stomach, Heart Burning, Bilious Complaints, pervade the Blood, and if not corrected, lay the foundation of Liver Complaints, General Debility, can be remedied, removed, and entirely cured by the use of the INDIAN DYSPEPSIA PILLS.

The Pills have acquired the most astonishing cures in hundreds of cases of the above complaints, and are an invaluable remedy, in an especial manner, for Dyspepsia,—They act mild and beneficial, thus imparting mostly up on the blood, cleansing and purifying the same, and causing the digestive organs to perform their appropriate duties with regularity.

CURTIS & PERKINS, No 4, Strickland's New Block, west end of Kenduskeag Bridge, Bangor. ☞ PRICE 25 Cents per Box.

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs. Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children teething. It will immediately relieve them from pain, allay all spasmodic action, soften the gums, reduce inflamation, and is sure to regulate the Bowels. Depend upon it, Mothers, it will give restto yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup, during the past six years, over 20,000 bottles the last year. We believe it the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhea in Children whether it arises from teething or any other cause. It gives universal satisfaction—never heard a complaint from any one who has used it—never sold a medicine so universally successful in relieving pain and effecting cures. In all cases above stated it taken in season relief in *three minutes* and a cure *certain*.

Agents are now being established in all the principle towns in the State of New York.

CHAMP AND PAIN KILLER.

The world is astonished at the wonderful cures performed by this Cream and Pain Killer, prepared by Curtis & Perkins. Its equal has never been known for removing pain in all cases; for the cure of spinal complaints, cramp in the limbs and stomach, rheumatism in all its forms, bilious colic, chills and fever, burns, sore throat, and gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine are in circulars in the hands of Agents. You have to positively *sure of relief* if you use it. *Millions of bottles* of this medicine have been sold in New England the past six or eight years—it is now for the first time being introduced into all the principle towns in New York.

☞ Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are free imitations. Price 12½, 25 and 37½ cts. per bottle according to size.

Also for sale those PURE

WILD CHERRY BITTERS,

For the cure of Bilious and Jaundice complaints, and general debility. They quicken the blood and give new life and energy to the whole system. Price only 37½ cents in Pint Bottles.

Great New England Remedy

FOR

Coughs, Colds and all Lung Complaints!!

HUNTER'S CELEBRATED

Pulmonary Balsam or Cough Syrup,

PREPARED BY

CURTIS & PERKINS, DRUGGISTS,

BANGOR, MAINE.

Proof Positive—Skeptics Read—Testimony! Testimony!! Testimony!!

HAMDEN, Feb. 21, 1846.

Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing so well calculated to operate so favorably in all diseases of the lungs as this is. I have known it to break distressing coughs in forty-eight hours, by using (in broken doses) one bottle of it. One case here in particular, of a man who was thought to have seated consumption, troubled with a hard distressing cough. I let what was left after giving me bottle, and he had two more of your Agent, Mr. Whitmore. After using the 3 bottles, he has become well, and now labors every day. He told me since, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in the power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

A CARD.

MRS. WINSLOW TO THE LADIES.

Mrs. Winslow, an old and experienced nurse and Female Physician, would call the attention of the Ladies to her Soothing Syrup for Children teething. It will immediately relieve the child from pain, allay all spasmodic action, soften the gums, reduce inflamation, and is sure to regulate the Bowels. Depend upon it, Mothers, it will give rest to yourselves and relief and health to your children.

Price 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup, during the past few years, over 20,000 bottles the last year. We believe it the best medicine in the world for Children teething or for the cure of Dysentery and Diarrhea in Children whether it arises from teething or any other cause. We have never known an instance where a complaint from any one using it—never sold a medicine so universally successful in relieving pain and affording rest and health to your children. We never saw a physician or nurse who did not recommend it. In fact, all the common diseases of the Bowels, connected with teething, arise from Worms, and the only sure and safe remedy is

DR. M'LANE'S CELEBRATED VERMIFUGE.

Prepared by Dr. J. M'LANE, Philadelphia. Sold by all Druggists and Dealers in Medicines throughout the United States.

☞ Be sure to call for Dr. M'Lane's Vermifuge, and take no other.

Dr. M'Lane's Liver Pills.

Dr. M'Lane's Liver Pills are a safe and sure remedy for Biliousness, Sick Headache, Jaundice, Dyspepsia, Chronic or Nervous Debility, and all diseases arising from a disordered state of the Stomach or Liver. Dr. M'Lane's Liver Pills are entirely vegetable, and may be taken at all times with perfect safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

Scott's Weekly.

One of the best literary papers published, said, August 2 "Dr. Hoofland's German Bitters, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the Philadelphia faculty, as an article of great efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. For debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weaksystems."

MORE EVIDENCE.

The Hon. C. D. Hyseling, Mayor of the City of Camden N. J., says:

"Hoofland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which the recommendations come, is sufficient to satisfy us of its merits. From inquiry we were persuaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. Its calms and strengthens the nervous, bringing them into a state of repose, making sleep refreshing."

"If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. It is worthy the confidence of the afflicted, and you can bid defiance to epidemics generally.—This extraordinary medicine we would advise our friends over 40 years of age to use, as a general renovator and strengthener itself. It should, in fact, be in every family.—No other medicine can produce such evidences of merit."

Evidence in favor of Hoofland's German Bitters (in the foregoing) from all sections of the Union, for three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other quack nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented in this form.

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious complaints—the effects of which last long. They can be administered to Females or Infants, with safety and reliable benefit at any time.

Also—the Anti-Dyspeptic or Stomach Bitters.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

DR. URBAN'S

ANTI-BACCHANALIAN ELIXIR:

A Safe and Sure Remedy for the Cure of

INTEMPERANCE.

IT is not in the least injurious to the system. It is pleasant to the taste, and will cure the hardest cases of intemperance. We *warrant* it, in all cases, if taken according to directions. It destroys the desire for all ardent spirits when strictly taken according to directions, and will restore the individual to the same state of sobriety in which he was before he ever drank a drop of the ardent, and he will not
